To Whom It May Concern:

TMP Construction Company has worked on two major renovation projects for my Company in the past 18 months.

TMP's principal, Tom Picozzi, is honest, hard-working and ethical. He is always available to take a customer's call. He handles the job from A to Z dealing with city/town officials, subcontractors and interior designers. He offers good advice, the kind of advice that is beneficial to the client.

TMP's pricing is fair. Mr. Picozzi does not undercharge and then "surprise" the client with change orders. Both of the renovations TMP did for my Companies were completed on time and on budget.

I have worked with many other construction companies over the past 30 years. I would give no company higher praise than TMP. I would definitely rehire TMP for any future projects I may develop.

Please feel free to contact me if you have any questions or require additional information.

Sincerely,
